# Pomodo Tech

SMART SOFTWARE FOR BUSINESS.

## Pomodo Cloud Manager

The Pomodo Tech Cloud Manager allows you to log online to see your business at a glance. This base system integrates with multiple other software applications including internally developed software. Start out with the basic portal, but expand easily with our add-on modules.

### Key Features:

- Hub to manage report and activity online
- Employee Management
- Inventory and Vendor Management
- Location and Register Management
- Warehouse Tools
- Accounting Tools
- Order Entry and Management

Pomodo Software is modular and built to be a scalable solution. We don't believe that "one size fits all" when it comes to smart software for business, so our Pomodo Tech Software modules allow you to choose only what you need and expand your solution as your business grows!
