Reliability

Why should I buy an All-in-One Touch Screen PC?

Why can't I just use a regular PC?
Regular PC's are cheaper right?

You get what you pay for!

The all-in-one Posiflex touch screen terminals are built for harsh environments like in a retail business or a restaurant running sometimes 24 X 7
Longer life expectancy than a regular PC

Covered by ADI's on-site swap-out plan or 3 years Manufacture warranty

Always up and Running

ADI doesn't mess around when it comes to hardware. We use only the best. When you cover it with our complete hardware swap-out plan you pay \$0 for a service call (on-site)* therefore it's to our advantage to use only the best hardware in the business.

Available in a desktop configuration, which easily converts to a wall mount solution, it offers you adaptability and scalability to propel your business to greater heights.

Call today and find out how the All-in-one touch screen PC can save your business money and help you grow your bottom line.

Change the way you look at POS
